POLYCARB GASTRONORMS

Polycarbonate GN containers offers many advantages. Polycarbonate is almost indestructable and, thanks to its transparency, you can see what the contents of the container are. In addition, it is an odourless and taste-free material that doesn't absorb these qualities from the food. The biggest advantage lies in the ease of cleaning. Polycarbonate GN containers are dishwasher safe, dry quickly and can withstand temperatures from -40° up to 100°C .

1/1 Polycarbonate Gastronorm

Zodiac
PROFESSIONAL

- Transparent design, perfect for front-of-house or open kitchens.
- Easy to clean, made from sturdy polycarbonate, microwave and dishwasher safe.

DISHES

Stainless steel vegetable dishes and meat flats are essential kitchen tools, valued for their durability, hygiene, and ease of cleaning. These dishes are perfect for both serving and storing food, as stainless steel is non-reactive and maintains the taste and quality of the contents. Ideal for daily use, they are resistant to rust, corrosion, and staining, making them long-lasting and versatile.

NOTES

Acacia Wood

Acacia Wood is a natural product and as such there will be variation of colour and grain from time to time. As with all wood, Acacia Wood is not dishwasher safe and should be washed in warm soapy water and dried immediately. Do not soak in water. As with many wood products, Acacia Wood can dry out, so store in a cold dry place and we recommend applying vegetable oil every so often to maintain the colour, however as this is a natural product the colour may deteriorate over time.

Olive Wood

Olive Wood is a hardwood renowned for its strength and rustic appearance. Our Olive Wood is carved from a single piece of wood meaning its colour shape and grain will not be consistent. Olive Wood is not suitable for dishwasher use and should be hand washed in soapy water and not left to soak. Store in a cool dry place and apply vegetable oil to maintain colour.

Slate

Avoid cutting directly on to the slate with sharp objects as this will mark the surface. Slate is not dishwasher safe and should be washed in warm soapy water and dried immediately. Do not allow the slate to soak.

Stainless Steel Cookware

Stainless Steel is the standard in the catering industry as it is easier to clean, more hygienic and more durable than aluminium. It should be noted that using metal utensils may result in the scratching of surfaces. Stainless Steel is dishwasher safe.

Aluminium Cookware

Do not use metallic utensils on any Aluminium Cookware as this could scratch the coating. Aluminium is not suitable for dishwashers.

Black Iron Cookware

Our Black Iron Cookware is supplied with a protective layer that should be removed before use with warm soapy water. Before use the pans should be seasoned by gently heating a small amount of oil and allowing it to cool before disposing of it. This is the process through which a natural, seasoned surface develops over time. Our Black Iron Pans are suitable for use with any heat source. When finished cooking, pans should be cleaned only using kitchen paper. Black Iron is not suitable for dishwasher use.

Enamelware

Enamelware is the perfect solution to breakable ceramics due to its steel foundation. Due to the nature of enamel every product can differ slightly. Wash before first use. After use, remove any excess food with a damp cloth. Do not use abrasive cleaning materials. Safe for use in the oven and dishwasher.

Electrical Equipment

12 month electrical guarantee. We will offer an exchange or refund within 30 days of delivery. If the fault occurs within 12 months of delivery we will offer a full exchange. In all cases we reserve the right to inspect the damaged product and verify the fault. Visit www.zodiacspco.co.uk for full terms and conditions.

WEEE Compliance

Under WEEE regulations we will take back end of life WEEE products that were sold by Zodiac Stainless Products Co. These products will be disposed of in accordance with WEEE regulations.

All images used are for illustrative purposes, actual product may differ.

Notes

Chips

the fast

choice the nation.

Chips quickly became a favourite meal
after the working classes over 150 years
ago. The taste buds of a nation called
for the East End on a Friday night.
Mr Chips had a bag of walking
then the spuds and of London.
The taste buds of a nation called
